Understanding Stalking

Defining Stalking

STALKING DEFINITION: BEHAVIORAL

Stalking is a pattern of behavior directed at a specific person that would cause a reasonable person to feel fear for the person's safety or the safety of others; or suffer substantial emotional distress.

CONTEXT IS CRITICAL in stalking cases.

Context

- * Something may be frightening to the victim but not to you
- * Stalking behaviors often have specific meanings
- * Stalking criminalizes otherwise non-criminal behavior

OF FEMALE STALKING VICTIMS

FELT FEARFUL, THREATENED, OR CONCERNED FOR SAFETY

Smith, S.G., Basile, K.C., & Kresnow, M. (2022). The National Intimate Partner and Sexual Violence Survey (NISVS): 2016/2017 Report on Stalking. Atlanta, GA: National Center for Injury Prevention and Control, Centers for Disease control and Prevention.

STALKING STATUTES NCLUDE FEAR OF SEXUAL ASSAULT

Fears Might Include:

- * Sexual assault
- * Voyeurism/privacy invasion
- * Friends and/or loved ones being sexually victimized
- * Intimate photos being created and/or shared
- * Offender sharing personal sexual information and/or rumors

Sexual Harassment

* "...unwelcome sexual advances, requests for sexual favors, and other verbal or physical harassment of a sexual nature."

* "...harassment is illegal when it is so frequent or severe that it creates a hostile or offensive work environment."

U.S. Equal Employment Opportunity Commission. https://www.eeoc.gov/sexual-harassment

Stalking and Sexual Assault: Commonalities

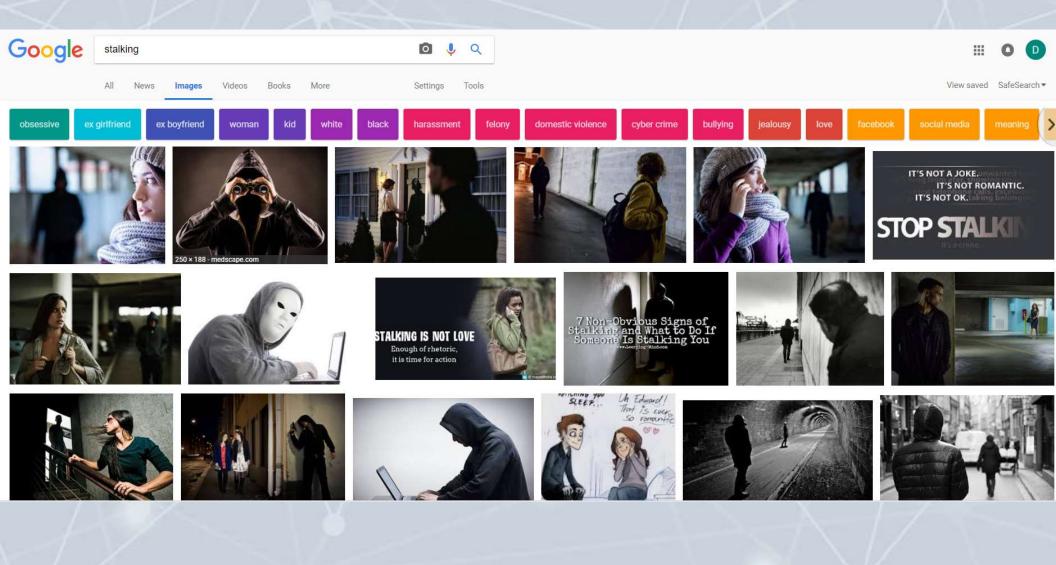

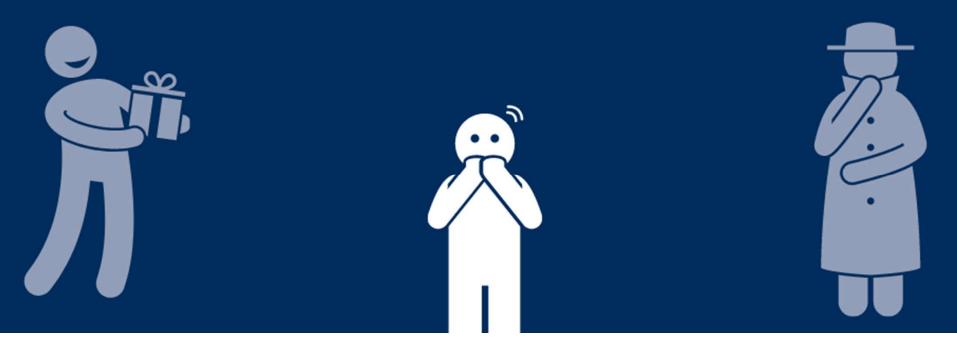

Myth of the Stranger Offender

"Research suggests that victims rely on notions of what a 'real' or 'legitimate' crime looks like, and these perceptions may impact reporting decisions."

> Reynes, B.W., & Englebrecht, C.M. (2012). The Fear Factor: Exploring Predictors of Fear Among Stalking Victims Throughout the Stalking Encounter. Crime & Delinquency 59(5): 788-808. DOI: 10.1177/0011128712461123

Relationships, Reporting, & Fear

Victims who knew their offenders were MORE likely to report feeling FEARFUL and yet LESS likely to REPORT to police than those stalked by a stranger.

Reynes, B.W., & Englebrecht, C.M. (2012). The Fear Factor: Exploring Predictors of Fear Among Stalking Victims Throughout the Stalking Encounter. Crime & Delinquency 59(5): 788-808. DOI: 10.1177/0011128712461123

Prevalent (in the United States)

Similar proportions of women and men experience stalking and contact sexual violence in their lifetimes:
